Mark Twain relates a thrilling series of can-

ibilities, which will be found on first page.

A correspondent of the Crawford Democrat

nominates Col. James E. Kerr, of Pittsburgh, at

the Democratic candidate for Governor.

Warren is to have gas and water works next

season, whereupon the *Ledger* says it "sees a

bright future opening up" for that enterprising

town.

The lecture of Anna Dickinson on Friday

evening, will, it is thought, attract a larger audi-

ence than ever assembled here on such an oc-

casión.

In the Philadelphia contested election case

the evidence continues favorable to the Repub-

licans, and it is said there is very little doubt

that the Democratic officials will be unseated.

Yesterday a man named Hatch, a resident of

Tart Farm, was severely burned and bruised and

one of his fingers broken by the premature

explosion of a torpedo in one of the wells at

that place.

At the New York Republican Legislative

chamber held Saturday evening, at Albany, there

was a full attendance, and Rep. E. Fenton

was nominated for United States Senator on the

second ballot, receiving 59 votes against 30 for

Edwin Morgan.

The remains of Hon. D. A. Finney were

taken from New York to Philadelphia for inter-

ment on Saturday. Besides the Congressional

Committee from Harrisburg, consist-

ing of Clark of Warren, Duncan, of Venango,

Amis and Beatty of Crawford, Rev. Mr. Strand

of Erie were appointed to act with Senators

Lowry, Pendleton, White, McCandless and Brown,

in attending to the ceremonies.

The Rev. Napoleon Magnaud of St. Paul's

church preached on Sunday. Let upon the loss

of his people he sustained in the destruction of

the St. Bridget's Academy. At the con-

clusion of his discourse a collection

was taken to the amount of \$2,429.75.

With the assurance of \$3,000 the society will

have now a fund of \$5,500, and will imme-

diately commence the work of rebuilding the acad-

emy.

On Friday last, the selection of a joint com-

mittee to try the contested election of Judge

Horn, of Philadelphia, embraced nearly the whole

time of both Houses at Harrisburg. The fol-

lowing committee the committee—Senators—

Simon, Taylor, McIntire and Brown of North-

ampton, Representatives—Auer, Clark, of War-

ren, Stevens, Miller, Meredith, Peter, Nichol-

son, Rohr, and Place—ten Republicans and three

Democrats.

Friday evening, Miss Kate Rupert, a most

attractive young lady, aged nineteen years, re-

ading with her parents in Harrisburg, received

fatal injuries from the explosion of a coal oil

lamp, which she was carrying in her hand. It ap-

pears she started to go up stairs to prepare for

the anniversary exercises in the First Presby-

terian church when the accident occurred. The

letter communicated to her clothing, and when

found she was completely denuded. Every por-

tion of her body, with the exception of her feet,

which were protected by her shoes, was burned,

and her sufferings were of the most agonizing de-

scription ending only with her death on Saturday

evening.

On the night of the 14th of September last,

the Titusville Starling mill was entered by b-

urglars, and over \$200 worth of clothing and arti-

ficials were taken.

On the 15th of the same month, a man named

John Bloom was arrested in Buffalo, on suspi-

cion of being the guilty party, and was brought

back to Titusville. A few days ago Bloom was

sent to the city who was the person who entered the

mill, and said that he turned it over to his son

property to one Joseph Roeder, who resided in

Buffalo. On Saturday afternoon, says the

Titusville Courier, Frank Read, a son of

Crawford county, arrived there armed with

a warrant for the arrest of Roeder, on a charge

of having stolen property. Roeder was found

at his residence on Clinton street, and was im-

mured. He was brought to Titusville last even-

ing.

Attorney General.

The annual report of Attorney General Ben-

jamin H. Brewster, for the year 1868, shows

that \$50,499.69 was collected in the year

1868 on account of principal sums due the State,

and \$4,461.42 for interest. These amounts were

for old claims. New claims were collected by

the Attorney General during the year just past

amounting to \$97,740.20, on account of prin-

cipal sums, and \$4,461.89, on account of inter-

est.

From several cases and suits of different char-

acter \$132,293.72 have been collected.

One hundred and twenty-two suits were

brought during the year. The quo warranto

brought at the suggestion of the Attorney Gen-

eral in 1867, and the "Gettysburg Orphan Asy-"

"lum," led to the payment into Court of the

funds in the hands of the directors, amounting

to \$1,500. Intermediaries in regard to the own-

ership were tried, and the point with double

difficulty during the present month.

The Washington Library Company, ceased its op-

erations and disbanded previous to the day

of hearing the quo warranto against it.

THE PRESIDENT'S HOUSE.

It is over a mile from Capitol Hill to the

White House, by the south grade of the street

road makes the journey in less than a rapid

run.

In the course of this year, I

urged Congress to pass a law

providing for the next Chief Magistrate.

But still the situation may not be healthy.

There seems to be no difficulty in the

matter of nominating a successor.

I am, however, anxious to have the

Titusville Morning Herald.

(CONTINUED FROM FIRST PAGE.)
was bewildered beyond description. I did not doubt his word; I could not question a single item in a statement made with the earnestness of a man who had been through it all. His dreadful details ever perplexed me, and threw my thoughts into a state of confusion.
As I sat the conductor looking at me, I said, "who is that man?"

"He was a member of Congress once, and a good one. But he got caught in a snow-drift in the cars, and like to have been starved to death. He got no fresh-blister and ironed on generally, and used up for want of water, until, when he was sick and out of his bed two or three months afterwards, he was all right now, only he was lame, and when he gets on that old subject he never stops till he has eaten up the whole car load of people he talks about. He would have finished the crowd by this time, only he had to get out here. He has got their names as far as A. C. G. When he got them all eaten up but himself he stopped talking. Then the train for the United States arrived having arrived, and took up no appearance. It had only started, when there being no objections offered, I resigned. Thus I am here."

I left inexpressibly relieved to know that I had only been listening to the harmless vagaries of a madman, instead of the genuine experiences of a blood-thirsty cannibal.

Foreign Gossip.

Charles Frederick Neumann, the German historian of the United States, whose great work on American history has been translated into seven languages, received only four hundred dollars for his manuscript.

Mary Carter, Queen Isabella's mother, says her daughter's damnation is her own fault. She advised Isabella many years ago to have married and Conimbricated and shot, and she positively refused to act upon her mother's humbug suggestion.

Primo's organ dies that consists of Spain ever had a son with him. In Madrid the story is considered the more doubtful as Primo's wife is a proud and exceedingly jealous wife, and is still known to be more favorably disposed toward the deposed Queen than her son.

Carlo Patti is going to Russia for several months. One of the Emperor's sons heard her in Brussels and was so delighted with her that he sent an invitation in the name of the Imperial family to visit St. Petersburg and Moscow.

The most passionate smoker among the now exiles is the King of Sweden. Unfortunately for the poor man his physicians have ordered him, on account of his feeble health, not to touch any more cigars and let pipe alone.

There is an additional clause to Rossetti's will which by the order of the great maestro, has been kept secret. It relates to relate to an opera score which Rossetti had left among his compositions, and which is not to be performed until five years after his death.

Will be ready for delivery in February. It is Five Feet

Square, representing over Two Square Miles of Oil Territory in Pennsylvania, Ohio, Indiana, Michigan, and Western New York. It contains a complete collection of all recent statistics and the names of the present owners. Also, the Railroads with present stations, showing upon it a map of the entire system from Pittsburg to Cleveland, Buffalo, Erie, Rochester, Pittsburg and Washington, also all the Pipe Lines and Tankage, making it valuable for both producer and shipper.

The great deserts of the produce spots where oil is or has been obtained, is distinctly noted over the whole map by a separate color.

A post photograph of the map will be furnished free to all who send us a stamp and two dollars or the money we will deliver it to them without further cost—in the city of Indianapolis.

HENRY E. WRIGLEY'S

NEW AND COMPLETE MAP

of the

Pennsylvania Oil Region,

NOW PUBLISHING.

Will be ready for delivery in February. It is Five Feet

Square, representing over Two Square Miles of Oil Territory in Pennsylvania, Ohio, Indiana, Michigan, and Western New York. It contains a complete collection of all recent statistics and the names of the present owners.

Also, the Railroads with present stations, showing upon it a map of the entire system from Pittsburg to Cleveland, Buffalo, Erie, Rochester, Pittsburg and Washington, also all the Pipe Lines and Tankage, making it valuable for both producer and shipper.

The great deserts of the produce spots where oil is or has been obtained, is distinctly noted over the whole map by a separate color.

A post photograph of the map will be furnished free to all who send us a stamp and two dollars or the money we will deliver it to them without further cost—in the city of Indianapolis.

Price \$1.00. Postage Paid. Price \$1.00. Shipping \$1.00.
